ORDER:

In the letters read above, the Chief Engineer (P), Mahabubnagar has submitted that that the Package No. 101 of Jawahar Nettempadu Lift Irrigation Scheme consists of formation of Sangala Balancing Reservoir and Chinnonipally Balancing Reservoir with a total storage capacity of 2 TMC under Jawahar Nettempadu Lift Irrigation Scheme. Due to formation of the Sangala Balancing Reservoir some of Panchayat Roads connecting the villages of Marlapalle, Jilledubanda and Sangala are being submerged. Hence it is necessary to take up Raichur to Marlapalle (Vg) alternative B.T. Road in place of submerged roads in order to restore the communications between above villages. Further, there is no provision in the Administrative sanction towards formation of alternative new roads. The length of new road to be formed from Raichur Road to Marlapalle is 4.725 Kms with the estimated cost of ₹. 3.59 Crores. Hence, it is essential to take up this road on top priority before impounding the water in the Sangala Balancing Reservoir to ensure communication to the villages.

2. After careful examination of the proposal, Government hereby accord administrative sanction for formation of B.T. Roads to alternative roads in lieu of submerged roads from Raichur Road to Marlapalle (4.725 Kms) including CD & CM works with an estimated cost of ₹..359 lakhs (Rupees Three hundred and fifty nine lakhs only) under Sangala Balancing Reservoir, Package No.101 of Jawahar Nettempadu Lift Irrigation Scheme and also to call for tenders under Non-EPC system.
